BARDAHL **AUTOMATIC TRANSMISSION** **CONDITIONER +STOP LEAK**

Cost effective and efficient solution to repair automatic transmission leaks except in CVT types transmissions.

THE PROBLEM

As mileage accumulates, both the internal and external seals in an automatic transmission shrink, harden, and lose their elasticity. This causes leaks resulting in fluid and internal pressure losses affecting the precise fluid flow required for proper operation of the transmission. Extended periods of stop and go driving contribute to fluid oxidation and deposit build-up in the valves and small passages inside the transmission. This will cause problems in shifting, including potential shuddering and slippage.

THE SOLUTION

BARDAHL Automatic Transmission Conditioner +Stop Leak is specially formulated to quickly and effectively stop minor seal and gasket leaks by softening and swelling all types of rubber and elastomeric seals. Additional detergents and dispersants remove existing deposits restoring proper valve action and fluid flow. This solution includes anti-wear agents and antioxidants that improve protection and help prevent future deposits and leaks to extend the life of the transmission.

THE BENEFITS

- Eliminates transmission leaks while driving
- Compatible with all types of automatic transmission fluids, including synthetics, except CVT.
- Conditions and revitalizes old seals that have lost their pliability
- Restores proper valve action and helps improve shifting performance
- Removes harmful deposits and extends the life of the transmission

DIRECTIONS

Add one bottle of **Automatic Transmission Conditioner +Stop Leak** into the transmission. Do not add to CVT type transmissions. Do not overfill. The solution will work while the vehicle is in operation and best results are achieved after several hundred miles of driving. Dispose of any used or unused solution in accordance with the local, state and federal regulations.

Product Specifications

Product #	6018
Unit UPC#	0 76906 06018 9
Case UPC#	30076906060180
Pack Size	12x16oz (473 mL)
Dimensions	L x 11" W x 8.25" H 10.25"
Weight & Cubic ft ³	12.6 lbs / 0.54 ft ³
Color	Dark Red
Specific Gravity	0.880
Viscosity	7.0 cSt @ 100°C
Flash Point	>356°F / >180°C
